PRICE 10 CENTS.

GAMBLING CASE NOW UP BEFORE DISTRICT COURT

NUMEROUS OTHER CASES ARE
CALLED AND SET FOR TRIAL
THIS WEEK.

The case of the State of Nevada vs. Gajo Pistinat, the Rhyolite gambling case, in which the defendant is on trial for owning a house in which gambling was being conducted, is up for jury trial in the district court today and most of the day has been spent in drawing a jury.

The following cases were on the calendar today:

Manhattan Consolidated Mines Co. vs. Manhattan War Eagle Co. Motion; continued for one week.

J. C. Tognoni vs. Louisa Irwin et al. Motion; continued for one week.

State of Nevada vs. Hugh Miller. Trial; comes up tomorrow.

R. Rohwin vs. Noffsinger. Trial; continued one week.

Henry vs. Manhattan Pipe Dredge Co. Trial; settled out of court.

Estate of George Dondoro. Final account allowed and property distributed.

Estate of Mike Flannigan. Final account and distribution.

Estate of Clarence David. Final account and distribution.

On Wednesday, August 30, the following cases have been set:

State of Nevada vs. John Stout. Judgment.

Pittman vs. Nevada Garfield Mines company. Trial before Judge Somers. On Thursday, August 31, the trial of Milo Basich will come up.

RUMORED STRIKE IN THE RESCUE EULA MINE

A rumor was started yesterday and has covered a good bit of ground that a strike had been made in the Rescue Eula property. This is denied by Manager Luckett. Mr. Luckett, who has charge of the North Star also, says that the strike made in that property several days ago is looking very encouraging.

POPE CELEBRATES MASS.

ROME, Aug. 28.—Pope Pius yesterday for the first time since his recent illness personally celebrated mass in his private chapel in the presence of his secretaries. Later he drove about the Vatican gardens.

YOUNG GIRL IS LEADER OF A BAND OF HIGHWAYMEN

HOLD UP AND ROB A MAN, BEAT
HIM SEVERELY AND THROW
HIM OVER FENCE.

CHICAGO, Aug. 28.—Led by a 20-year-old girl, four men held up Casimir Kranz Saturday and robbed him of a gold watch and \$5, then severely beat him and threw him over a fence into a yard. Detectives who witnessed the hold-up, captured Kitty Klinski, leader of the band, and Paul Mawrot, 18 years old, after a revolver fight, in which half a dozen shots were fired. Mawrot told the police that he and four others decided on a career of crime a week ago, and organized by electing Kitty Klinski as leader. The plan was to have the girl lure victims to an unfrequented street, where they would be beaten and robbed by the men of the gang. Kitty Klinski's room was used as headquarters for the band. Lizzie Novak, 25 years old, a room mate of the Klinski girl, was later placed under arrest.

MOOSE SPENDING MONEY.

DETROIT, Mich., Aug. 28.—The national convention of the Loyal Order of Moose Saturday empowered its educational committee to spend \$50,000 for the organization of a Moose industrial school, where orphans and children of members may be educated in useful trades.

SILENCE REIGNS SUPREME IN SPARKS RAILROAD SHOPS

Test Vote Said to Be for Walk-Out—Stated That Two Unions of Federation Were Opposed to Strike But Majority Were In Favor.

RENO, Nev., Aug. 27.—Saturday the machine shops of the Southern Pacific Co. at Sparks were silent. The great structure is haunted by the ghosts of its former activities. Belting hangs slackly over the wheels and the giant machines stood inert and lifeless, for the spark of life ceased when the controlling switch was thrown off Friday evening.

It is seemingly a small matter for the machine shops to be closed for but a day, yet there is back of it the portent that all regret to see, even those who are responsible for this action.

There is a general and compelling feeling that this is the forerunner of labor trouble; in fact, it is the gauntlet thrown down. Seemingly all was as usual, save for the shutdown, and shutdowns are not uncommon. The men sauntered about the street, some of them were to be found in the saloons, but all were discussing baseball scores, the heat or some other comparatively trivial subject.

When approached by one not a member of their federation they had

absolutely nothing to say. They were not brusque in their manner, nor made offensive remarks, as some of the "boomers" did at the time of the previous strike, but very politely informed the news gatherer that they did not know anything regarding any impending labor troubles.

But there were one or two mechanics who went so far as to say that they thought something might be doing elsewhere on the Southern Pacific system and that they might be called upon to stand in.

Officials Are Non-Committal. Over in the yellow building, where are the offices of three assistant superintendents, there was also a vacancy of news. It was said, however, that no local disagreements lay at the base of the trouble, if there was really to be trouble. The officials said that the men seemed to harbor no ill-feeling against them. The officials regretted that a strike might occur, but said that if it extended no farther than the shops it would not tie up the system, unless the strike was continued for a long period of time,

as the equipment was never in better condition.

It was intimated by a railroad employe that the federation has voted in favor of the strike, although the figures are not given out.

The federation is a new organization, formed last June. It embraces the machinists, blacksmiths, sheet metal workers, brass workers and, in fact, all the unions that comprise the workers in and about railway shops.

There are three unions that have coalesced into the federation at Sparks. It is said that they voted separately on the strike question and that one of the unions favored the strike and two were opposed, but the majority of the one union was so great that it overcame the other two and thus the Sparks federation has voted to strike.

It must be understood, however, as before stated, that this information is not authoritative, but is as near the truth as can be obtained under the present conditions of secretiveness.

DISTRICT COURTS ARE AFFECTED

DECISION REGARDING FEES TO BE HEARD UPON THE STATE COURTS.

CARSON CITY, Nev., Aug. 28.—Attorney Sardis Summerfield of Reno walked into the office of the clerk of the supreme court today and asked to see the new ruling made by the justices relative to court costs. He was shown the order or decision. The decision has not yet been given the public, as the members will add to it before it is signed and printed. It will include the cost fees in the pending election contest.

Mr. Summerfield, on being asked what he thought of the decision, stated that in his mind it would affect every district court in the state. That it would undoubtedly cut down the revenues of the courts and county treasury, but at the same time it would be a sweeping benefit to the litigants throughout the state.

Other attorneys are anxious to see the decision in print, and as soon as it is signed and turned over to the public the lawyers throughout the state will endeavor to have the ruling enforced in the different district courts of this state. Many inquiries have already been received by the clerk of the court relative to the matter and they will be answered as soon as the entire decision is ordered published by the court. The fact that it was read from the bench makes it public property, but the order lacks the signatures of the court members to make it a complete public document.

FRATERNAL BROTHERHOOD TO GIVE DANCE ON THE 11TH

The Fraternal Brotherhood is making extensive plans for the dance to be given by that organization on the evening of September 11 at Elks' hall. The last dance given by the Brotherhood was a huge success and they guarantee that this one will surpass the former. Enough tickets have already been sold to insure a big crowd.

TRAIN WRECKED.

DAYTON, Ohio, Aug. 28.—A passenger train on the Delphos division of the Cincinnati, Hamilton & Dayton railroad, was partly wrecked at Kinsey last night and ten passengers were seriously injured.

AUSTIN WAS NOT MURDERED SAYS THE JURY

HOLDS HE CAME TO HIS DEATH BY GUNSHOT WOUNDS IN- FLICTED IN HIMSELF.

SALT LAKE CITY, Utah, Aug. 28.—It was 8 o'clock Saturday night before the coroner's jury in the court of Justice of the Peace E. M. Bishop brought in a verdict in the inquest concerning the death of George Harry Austin, a chauffeur who was shot under mysterious circumstances on the early morning of July 25.

"George Harry Austin came to his death from a gunshot wound inflicted by his own hand," is the verdict returned by Jurors J. P. Anderson, E. W. Poulsen and W. H. Derr. Before the verdict was returned, however, Juror Anderson expressed dissatisfaction with the inquiry and suggested that witnesses be examined again. Anderson was prevailed upon to withdraw his objections and the verdict was signed.

At 4 o'clock Saturday afternoon the jury went to O'Donnell's undertaking establishment and viewed the body of Austin, and the taking of testimony was resumed. Mrs. Austin was examined at great length by Assistant County Attorney J. F. Bowman. She repeated her story of the shooting and it was corroborated by the testimony of other witnesses. Dr. Sprague testified that when he was dressing Austin's wounds at the emergency hospital, Austin asked him if arrests would be made if some one shot him. Dr. Sprague replied in the affirmative and Austin said:

"Then, in that case I shot myself, and that's all there is to it."

Attorney Bowman says that the verdict has by no means explained some phases of the case, and that the investigation will be continued.

HOWE'S BIG CIRCUS COMING.

Frank Burns, advance agent of Howe's Great London circus, is in Tonopah today making arrangements for his big show. The bill posting and advertising car with its crew is at the depot and the town is being properly billed today. The circus will give two performances in Tonopah on Monday, September 11.

Old newspapers for sale at this office—25c per hundred.

KLINE KNOCKED OUT BY CONLEY

SLUGGING MATCH ENDS IN THE FOURTEENTH ROUND WHEN KLINE DROPS.

LOS ANGELES, Aug. 28.—Frank Conley of Kenosha, Wis., knocked out Patsy Kline of Newark, N. J., in the 14th round of what was scheduled to have been a 20-round fight before the Pacific Athletic club at Vernon Saturday. They fought at 122 pounds.

Conley led throughout the battle, which was a slugging match from start to finish. Kline took a terrible beating on the body, but with the exception of welts over his kidneys he showed no marks of the battle. Conley's face was badly cut from the first and he bled above the eyes in every round.

There were no knockdowns until the 14th, when Kline sank to the floor, more from the punishment he had assimilated than from any one blow. He came up at the count of nine, but sank to the floor again, under a half dozen blows and, though conscious, was too weak to rise before the tenth round was called off. Conley will be matched with the winner of the Rivers-Kilbane fight scheduled for Labor day.

FIRE AT MILLERS DESTROYS RESI- DENCE SUNDAY

The building occupied by Abram Gusti and family at Millers, was entirely destroyed by fire at 1:30 yesterday (Sunday) afternoon. The house, consisting of five rooms and their entire contents, went up in smoke. Mr. Gusti was at work in the Desert Power mill at the time and Mrs. Gusti and family were in Tonopah on a visit to their uncle.

Gusti can't account for the cause of the fire, as he did not use the stove, and its cause is a mystery to him. His loss will amount to about \$1200.

For awhile it looked like the whole lower end of Millers was in danger, but the boys from the Desert Power mill came gallantly to the rescue with a long line of hose, thereby saving a great deal

NEW STRIKE MADE THREE MILES FROM CEDAR CORRAL

Locators Claim Ledge Is From 25 to 40 Feet In Width and Crops for 500 Feet—Sev- eral Leave for Scene.

Rich silver-bearing quartz brought in from near Cedar Corral by J. J. Clark and E. M. Johnson was the cause of a little stampede for that camp this morning. The strike is a new one, and is about three miles north of Cedar Corral, or Volcano, and has been made by Clark and Johnson. Mr. Clark, in speaking of the strike this morning, had the following to say:

"I am certain that we have one of the largest milling propositions that has been discovered in this section of the country. So far we have done no work, as we only made the locations a few days ago. The ledge is from 25 to 40 feet on the surface and crops for about 500 feet. Assays taken across the ledge show good milling values, practically all silver and very little gold. Streaks of high-grade have

also been found. "Our locations consist of four claims, and besides the locations we have taken, other parties who happened to be in the neighborhood have taken up seven claims, making eleven locations in all. We have no townsite and all who come out will be at liberty to examine the strike and pitch their tent wherever they please, so long as they do not interfere with our monuments. There is good water within two miles."

Mr. Clark returned this morning. Another party, consisting of Al Haag, Chris McCarthy and Lou Walker also left this morning for the scene, and several others are preparing to go.

William Ashburn joined the rush this morning, going to the strike in Reno's auto. The new discovery is about 15 miles from Tonopah.

NERVED HIMSELF TO PASS THROUGH SHAFT OF FLAMES

ELY, Nev., Aug. 28.—"It is a mighty good thing I am so strong. I guess I must be dreaming, but know I will come out all right when I wake up," said Peter Harrington as he was assisted from the cage of the Groux shaft Wednesday night. The cage with its human freight had just come through hell, Harrington was delicious, believing he was having a bad dream; three other occupants of the cage were huddled on the floor and had, fortunately, fallen toward the center and not away from it to get battered or pulled from the cage, alive but unconscious, bruised about the head from having struck against the timbers.

Harrington was the only man on the cage in a standing position and it was only because he had a bulldog grip on the rod above his head that he had not fallen off the heap with the others. He is a large and powerful man and had evidently appreciated the fact that he and his companions were going through an ordeal to try the very strongest heated and most stoical and had steeled himself to endure even beyond the limits of what he thought he could possibly stand. To that determination he probably owes his life as, probably, had he fallen with the others on the floor of the cage he would have been dragged off by striking the timbers and might have dragged others of the men off with him.

Passing through the blazing portion of the shaft was bad enough, but having to ride above the fire, as in a chimney, and never get a breath of fresh air, but be compelled to inhale the smoke and poisonous gases resulting from the combustion going on below, was hell and no mistake. The smoke and gases in the lungs were like so much corrosive acid and destroyed more or less of the delicate organs so important to man. If Harrington and his companions recover from their present condition it will be a marvel, but they have the best wishes of a host of friends for a speedy return of strength and health.

FORESTERS END SESSION.

DETROIT, Mich., Aug. 28.—After a brief session, in which the newly elected officers were installed, the biennial convention of the Foresters of America came to a close on Saturday. A number of routine matters were disposed of by the new officials. The next convention will be held in 1913 at Atlantic City.

of property, and to Howard Coleman and his gallant crew of firefighters the residents of that portion of the town are greatly indebted.

CONDUCTOR ON T. & G. MEETS WITH SERIOUS ACCIDENT

IS CAUGHT UNDERNEATH FALL- ING TIMBERS—REMOVED TO HOSPITAL.

C. C. Shaner, conductor of the ore train on the Tonopah & Goldfield railroad, met with a serious accident yesterday afternoon at 4:30 o'clock in the Belmont lumber yards.

When he was removed from underneath the timbers it was thought that he had been killed, but he was soon revived and removed to the Miners' hospital.

An examination revealed that the conductor had sustained a badly fractured leg above the ankle and that his back was also badly injured. Little is known about Shaner in this city. He comes from Pennsylvania and has been with the Tonopah & Goldfield railroad about six months.

ROADS MAY BE TIED UP BY A GREAT STRIKE

SECRET VOTE BEING TAKEN BY EMPLOYEES AND IS SAID TO BE UNANIMOUS.

SAN FRANCISCO, Aug. 28.—E. L. Requin, president of the San Francisco Federation of Shop Employees of the Harriman lines, said last night that he believed a secret vote now being taken here by the federation would be unanimous for a strike. The result of the vote will not be made public.

"It now rests entirely with the company," said Requin. "The men all over the country have declared almost unanimously for a strike, unless our conditions are met. We are determined that we shall be recognized as a federation."

"I have not been advised of Vice President Kruttschnitt's reported intention to visit San Francisco. If he arrives here Wednesday our board of arbitration will be glad to meet him."

"Our men will not do business as a craft organization. They will stand together as a federation or not at all. We will accept no compromise."

Twenty per cent of the employees of the Mission Bay shops were dropped from the pay rolls Saturday. The men remaining will work full time, or nine hours a day, six days a week.

ED WHEECE—Keeps all kinds of clear and common lumber; hay and grain. 8-18-1m
